

One sunny day I woke up and took a bath and put on my spacesuit. First, I went to go get my friend Anjel. Second, Our mother's drove us to the Space Shuttle place so me and Anjel could go to the moon. Third, when we got on the Space Shuttle we put on the helmet to our spacesuit. Fourth, 10, 9, 8, 7, 6, 5, 4, 3, 2, 1, Blastoff!!! We were off to the moon.

When we got there we landed on the moon! We got out and looked around and looked at each other and said "This is cool". So, we started jump-walking and picked up some moon rocks. When we got done doing that we put the American Flag in the dirt. Then, we looked and saw some aliens. They walked up and we stepped back. Suddenly, we were surrounded by aliens, but all they wanted was a moon rock so we gave them one and they left. We got back in the Space Shuttle and went home. When we got home we told everyone about our adventure. We gave everyone a moonrock.
